Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 10, 2006 has been entered.

Ex Parte Quayle

This application is in condition for allowance except for the following formal matters: The objections to the drawings and specification as described below.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Drawings

The drawings were received on February 10, 2006. These drawings are accepted except for Figures 2 and 3.

The Figures 2 and 3 of the drawings are objected to because the reference numbers which appear to be, 54, 60, and 146, are not clear and unnecessarily confusing. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." The objection to the drawings will not be held in abeyance.

Specification

The disclosure is objected to because of the following informalities:

The disclosure is replete with the inconsistent and unnecessarily confusing use of a reference number as a subject of a sentence. For example, the sentence "In FIG 1, #1 represents the full side view of a complete machine" should be changed with "In FIG 1, the full side view of a complete machine 1 is represented." Some more examples involve the reference numbers 7 (page 7, line 17), 14 (page 7, line 21), 20 (page 8, line 6), 21 (page 8, line 6), 24 (page 8, line 8), 27-31 (page 8, lines 11-14), 32 (page 8, line 20), 70 (page 9, line 1), etc.

Additionally, the phrase "sprockets 12 and 13" (page 8, line 6) should be changed to "sprockets 12 and 13".

The phrase "83 straddle 83" (page 9, line 6) should be changed to "straddle 83."

What is "gun.lock" (page 9, line 15) ?

The phrase "Page6" (page 9, line 23) should be changed to "Page 6".

Appropriate correction is required.

Allowable Subject Matter

Claims 22-28 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art of record disclose a rock and ore crusher having a suspended impeller comprising a supporting main frame structure, an impeller support spindle, a support bearing apparatus on said main frame arranged to support and engage said spindle for rotation of the spindle in substantially vertically-suspended condition supported on said main frame, a power drive means on said main frame for engaging said spindle to rotate the spindle supported in vertically-suspended condition on the main frame by said support bearing apparatus.

However, the prior art of record does not disclose or render obvious all of the details of the limitations of independent claim and, in particular, a rock and ore crusher comprising an impeller mounted on the vertical bottom end of a suspended hollow spindle for rotation therewith.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. They include MacDonald et al. (US 3,970,257) and Young et al. (US 6,070,820).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jason Y. Pahng whose telephone number is 571 272 4522. The examiner can normally be reached on 9:00 AM - 7:00 PM, Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Derris Banks can be reached on 571 272 4419. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
